DEMOCRATS DENOUNCE TARIFF BILL IN MINORITY REPORT AS 'A SUBTLE, COVERT INFAMY'

'Like Every Conspiracy, It
Has Been Hatched In
Secrecy'

'Plan To Plunder People of
Our Country,' Minority
Report Say

[By Associated Press to The Banner]
WASHINGTON, July 7—Democrat
members of the ways and means
committee, in a minority report filed to-
day in the house of representatives,
denounced the administration tariff
bill as a "conspiracy to benefit a few
favorites at the expense of all hu-
manity."

"Like every conspiracy, it has been
hatched in secrecy," the report says,
adding, "We record our solemn judg-
ment that this measure is a plan to
plunder the people of our own coun-
try and to oppress the people of ev-
ery country for the benefit of a few
men who have succeeded in usurping
for all practical purposes the taxing
power of this government, using it
primarily to enrich themselves, and,
secondarily, to finance the political
party which tolerates, encourages and
facilitates the usurpation."

Emphasis is laid upon two things—
the probable effect of the bill on
American commerce and the world
industrial situation generally, and
upon the substitution of the system
of American valuation as a basis for
levying tariff duties, which is de-
nounced as a "subtle, covert infamy."
Asserting that it is proposed by this
bill "to declare a savage commercial
war upon the whole human family,"
the Democratic minority says it is
doubtful "if in the history of polit-
ical affairs a measure so irredeemably
and universally vicious has ever been
submitted to the law-making power
of a civilized society."

CHICAGO IN GRIP OF THE HEAT WAVE; FIVE DEATHS REPORTED

[By Associated Press to The Banner]

CHICAGO, July 7—Chicago and
much of the middle west today was
still in the grip of a record-breaking
heat wave, with the local weather bu-
reau announcing no relief in sight.
The thermometer here, which regis-
tered 82 early this morning, was
steadily rising after a sweltering night
when thousands sought the benches
in parks which had been opened for
sleeping purposes.

The heat yesterday was held di-
rectly responsible for five deaths and
dozens of prostrations in Chicago,
while health officers asserted the city's
mortality rate had been doubled.

Farmers in Iowa reported corn had
been growing one inch every 24
hours for the last two weeks.

SANITATION NEEDED IN THE SCHOOLS

[By Associated Press to The Banner]

CHICAGO, July 7—School buildings
should Americanize by setting before
children standards of cleanliness, at-
tractiveness, and sanitation. Neither
American nor foreign-born children
should be exposed to the effect of liv-
ing daily in schools with grimy walls
and dirty floors.

These were outstanding features in
recommendations made by William T.
McCoy, vice-president of the Ameri-
can Federation of Teachers, in ren-
dering to the Chicago High School
Federation his report of the Eastern
Conference of the organization held
recently in Washington, D. C.

"Our school plants should be mod-
els of neatness and sanitation," he
said. "The existing deterioration of
the school system throughout the
country makes it imperative that
teachers themselves establish stand-
ards desirable for school buildings.
We note with regret that pupils and
teachers are becoming accustomed to
surroundings below the standards of
their home environment. The social
menace we see in this situation is
that the public school will not con-
tinue to be a civic model but a sym-
bol of degradation."

"The following standards for school
buildings were submitted for adoption
by teachers throughout the United
States:

"Rest rooms for girls and teachers.
"Lunch rooms for pupils and teach-
ers.

"Clothing closets with facilities for
drying and ventilation.

"Drinking fountains so adjusted
that infection from this source will
be impossible.

"Hot water, liquid or powdered
soap.

"Absolutely sanitary conditions in
toilets.

"Thorough cleaning of class rooms
at least once a month.

"Abandonment of use of class-
rooms without natural light and pure
air.

"Insistence upon systems of venti-
lation, heating, and sweeping which
do not dry up or contaminate the air.

"Maintenance of needed repairs
within buildings and of a neat appear-
ance outside.

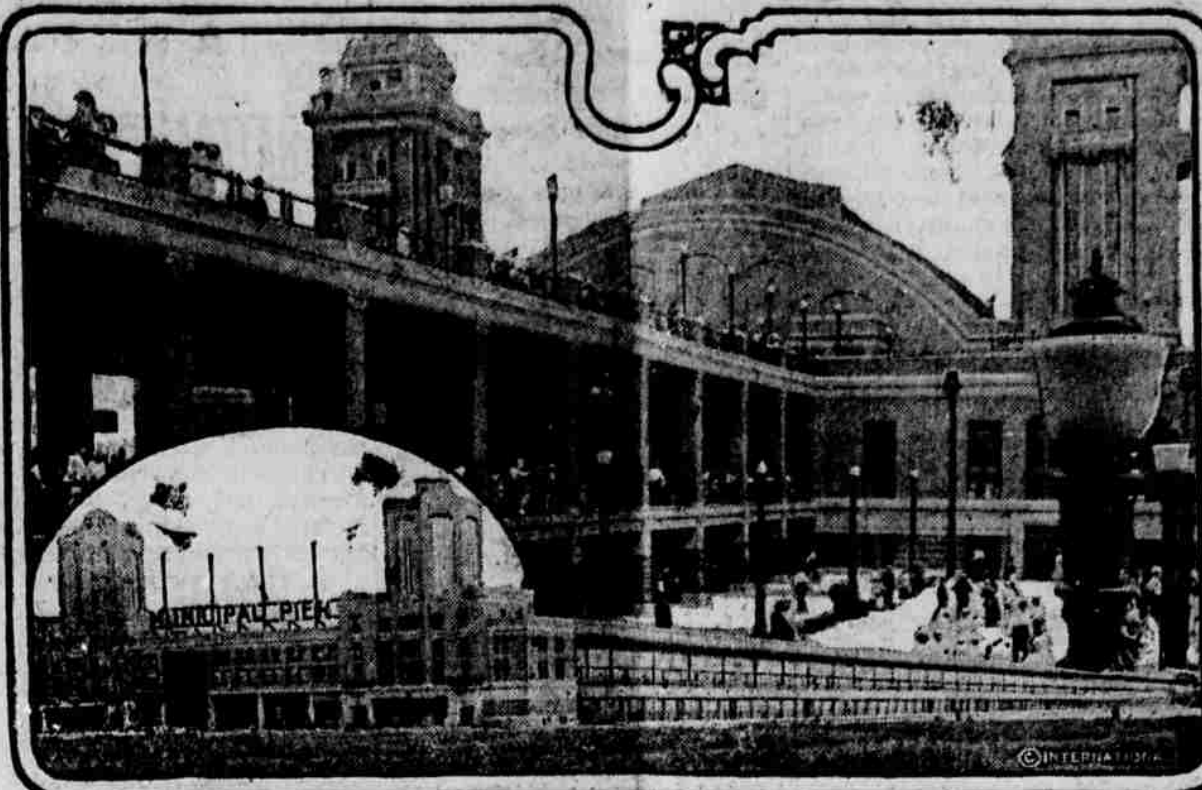

"Strict conformity to regulations es-
tablished by the first department.

"Only as American teachers set the
standard that school buildings shall
be safe and clean can they be said to
perform their duty in teaching civics.
The building will speak louder than
the teacher."

[By Associated Press to The Banner]
CLEVELAND, July 7—Mysteries of
the spirit world were discussed today
in the trial of Mrs. Eva Kaber, charged
with the murder of her husband, Dan-
iel F. Kaber.

Mrs. Mary J. Wade, who claims to
be a medium capable of communicat-
ing with spirits, told on the witness
stand of visits by Mrs. Kaber to her
home to obtain advice.

"I want you to try to get rid of Dan
Kaber for me," Mrs. Wade said Mrs.
Kaber told her on the last visit.

"How?" Mrs. Wade said she asked
Mrs. Kaber.

"I want you to kill him—anyway to
get rid of him. The man I love has
no money—only brains—and Mr. Ka-
ber has \$50,000 life insurance," Mrs.
Kaber was alleged to have replied.

Mrs. Wade previously had told of a
visit by Mrs. Kaber to her home when
she said Mrs. Kaber told her that she
had met a professor of an eastern col-
lege where her daughter, Marian Mc-
Ardle, was in school, and that she
loved him.

Mrs. Bertha Mielthke, grandmother
of Patricia, the little girl adopted by
Mrs. Kaber, said Mrs. Kaber had told
her that she "hated Dan Kaber and
was going to get rid of him within
the next six months in some man-

RAILROADS TO RECEIVE LARGE SUM FROM THE GOVERNMENT, IT IS ANNOUNCED BY SECY. MELLON

BONUS BILL IS
DISCUSSED AT A
LUNCHEON TODAY

[By Associated Press to The Banner]
WASHINGTON, July 7—Deferment
of senate action on the soldier bonus
bill and suspension of business by
the senate, while awaiting house ac-
tion on the permanent tariff bill, were
said to have been topics of discus-
sion at a luncheon conference today
between President Harding and Re-
publican senate leaders at the capitol.
The conference was informal and
grew out of the president's unan-
nounced arrival at the capitol to have
luncheon with a group of senators in-
cluding Senator Lodge of Massachu-
setts, the Republican leader. After
the luncheon the president retired to
his private office of the senate cham-
ber and sent for Senator McCumber,
Republican, North Dakota, in charge
of charge of the bonus bill and Sen-

Approximately Five Hundred
Millions Advance
Coming

Government Will Receive For
The Advances 6 Per
Cent Securities

[By Associated Press to The Banner]
WASHINGTON, July 7—Treasury
Secretary Mellon announced today
that under a provisional refunding
arrangement made with railroad ex-
ecutives, the carriers would receive
approximately \$500,000,000 in ad-
ditional advances from the government
within the next six months.

Mr. Mellon said the negotiations
with the executives probably would
be completed within two days and
that the advances contemplated would
give to the railroads in cash sums of
money equivalent to those which the
government spent in capital better-
ment during the period of wartime
control.

The government will receive for the
advances six per cent securities,
evidencing the indebtedness of the
particular railroads which receive
the advances, it was explained.

Mr. Mellon indicated that addition-
al appropriations would be sought
from congress to make the advances.

Mr. Mellon said he believed the ad-
vances to the roads would be benefi-
cial to the general financial situation
and might assist in a resumption of
business activity. In many cases, he
said, the advances would enable the
railroads to pay outstanding debts to
industrial companies for supplies
used during the past year and would
in addition furnish funds for the bet-
terment of equipment and repairs of
neglected railroad property.

MAN FINDS FLIWER ON HIS BED POST

Mt. Gilead Man Does A Stunt
With A Ford At Dela-
ware, Ohio

DELAWARE, July 7—How would
you like to be awakened suddenly
from a sound slumber and find a Ford
sedan hanging on your bed post?

That was the experience of Levi
Nackel, who resides on the Ashley
road near here. At daybreak Nackel
became conscious of the fact that his
bed was being moved rather rapid-
ly across the room. He opened his
eyes and turned over. Glaring down
at him were the bright headlights of
the car.

Nackel said he did not hear the
machine come through the building,
which took out practically the whole
of one side of the house.

The car was driven by Burt Wind-
sor, Mt. Gilead, who was returning
home from Columbus. The damage to
the house has not been estimated, but
an entire new side will be necessary,
Nackel said.

No explanation has been offered as
to how the car got off the road.
